ABOUT ME

Hello I am Saloni Ghosh first year B-tech student in IT Engineering. I am extremely passionate about coding and web developing .I'm a future engineer with a strong passion for web development, creativity, and problem-solving. I enjoy bringing ideas to life through elegant and user-friendly websites. With a curious mind and a drive to constantly learn, I'm building a future where I use technology to make a real impact.

PROJECTS

● 2024-1st Sem

Problem statement-Stress and Time Management

An app to Manage and Control Stress and Time

Designed and developed a user-friendly productivity app that helps users manage their daily schedule effectively while reducing stress. Integrated features like task planning, priority setting, break reminders, and mindfulness tips to promote a balanced workflow and mental well-being.

● 2024-1st Sem

Loreal Paris Add poster

Created a visually captivating and emotionally engaging advertisement for L'Oréal Paris. Focused on brand messaging, product appeal, and target audience connection using storytelling and aesthetic design to highlight elegance and empowerment.

● 2025-2nd Sem

Digital Portfolio

Developed a responsive and visually appealing digital portfolio showcasing my projects, skills, and contact information. Designed using HTML and CSS with features like animated charts, smooth navigation, and a modern UI to enhance user engagement and personal branding.
